TRADITIONAL VS AUTOMATIC MOWING TECHNIQUE

The principle function of the Husqvarna Automower® provides the service of a well cut lawn, not just a lawn mower. Things like horsepower, cutting width and technical details become less important with a Husqvarna Automower® that cuts your lawn day in, and day out.

Call 091 880 050 (Loughrea), 065 682 2272 (Mart Yard, Quin Road, Ennis) or 065 905 1147 (Kilrush) for more information.

Low weight and smart design allows for high capacity and low energy consumption

GPS-assisted navigation ensures uniform cutting result in complex gardens

Remote object detection makes the mower slow down before bumping into an object

Use the Automower® Connect @home smartphone app to setup and control your robotic mower within up to 10 meters distance with Bluetooth communication (no SIM-card needed). Included on selected 300 and 400-series models.

Headlights that allows you to see the product work even in the dark

With excellent terrain performance Husqvarna Automower® can cope with slopes up to 45 % (24°)

Drive motors with Ultrasilent technology enable extremely low noise levels

A very high mowing capacity allows maintenance of up to 5000 m² if operated 24/7, or a very short mowing time if operated on a small lawn

Pivoting razor-sharp blades gently cut each grass blade instead of ripping it off

Rubber bumper protects the cover from collision marks

10 YEARS OF FREE CONNECTIVITY INCLUDED!

The Automower® 450X depicted is equipped with the white top cover accessory. Not all features shown are available on all models.

Machines must be registered by an Authorised Husqvarna dealer

GPS-ASSISTED NAVIGATION FOR OPTIMAL MOWING IN COMPLEX AREAS

Husqvarna Automower® 315X, 430X, 450X, 520 and 550 have an onboard GPS system that creates a map of the lawn. The robotic mower knows exactly which parts of the lawn it has covered and optimises the mowing pattern automatically.

AUTOMOWER® CONNECT JUST ADD A SMARTPHONE AND YOU'RE IN CHARGE

Automower® Connect is a feature that gives you full control of the mower right in your smartphone. You can send start, stop and park commands, check and adjust the settings, and also receive alarms and track your mower's position in case of theft – wherever you are.

Call 091 880 050 (Loughrea), 065 682 2272 (Mart Yard, Quin Road, Ennis) or 065 905 1147 (Kilrush) for more information.

HONDA

The ATV for Professionals.

Sean O'Brien has teamed up with Honda Ireland to become their new Honda ATV Brand Ambassador. Sean, a very successful professional national Rugby player, is from a 4-generation cattle farming family and is a long-time owner of Honda ATV's. Sean rates Honda ATV's for their safety and reliability. He is the proud owner of a 2017 Honda TRX500FA6 – 475cc with switchable 2/4wd, independent rear suspension, electric start, power steering and a towing capacity of 600kg. Sean has previously owned 350cc and 450cc Honda ATV models. He typically uses the Honda for fencing, checking stock and relies on the quad to get him out of a sticky situation with any angry cattle!

“ A Honda will never let you down, they're reliable and they were always the best make out there. ”

Jenny Reynolds, Director, Honda Ireland commented 'Despite his outstanding professional rugby career Sean is a grounded individual with an extensive farming background. Sean uses his Honda for a multitude of tasks on the farm and has been an advocate of the brand throughout his farming life to date. It's fantastic to partner with a brand ambassador that truly understands the value and quality of our products.'

The Honda ATV range caters for all buyers with 250 – 500 cc options in manual or electric shift variations. Power steering and independent rear suspension options are available for 420 and 500cc models.
